

I am concerned with wiyh actions to dismiss station such as K-LOVE. We currently listen to 92.1 fm. This has been an answer to our needs. This station allows us to communicate to others on an equal basis as we listen to the exact same programming nationwide at the same time. Being replaced by an FMLP broadcaster will eleminate this closeness and impend our communication with others needing to discuss the porogramming from a nationwide or worldwide program.

Respectfully Submitted,        Eddy Riley
